

Member Choice

Simplifying everyday health insurance decisions

Save up to 15% on funding rates when you offer Member Choice plans to your employees!

Medical Mutual is excited to offer Member Choice through the COSE Benefit Plan. With Member Choice, employers can offer alternative coverage options with the same deductible at different price points. This gives employees choice in plan design selections while not having to choose between deductibles.

How Member Choice Works

Employers can select a maximum of two plan pairings. Each of the paired plans have the same deductible, yet provide a savings of up to 15% between the two plans.

If an employer wants to offer both copay and HSA plan options, one Member Choice copay plan (two plans) as well as one Member Choice HSA plan (two plans) can be selected, allowing up to four plans for your employees.

	Member Choice (MC) Pairing	Plan Names
